Dear Friends,

Since its inception in 1992, the mission of ARSI has been to promote good affordable and reliable rural healthcare in the rural areas of our country. The aim of the Association was to have cooperation of other socio- health organizations, who have been delivering similar services, to share the knowledge of each other and to thereby upgrade the health management of the rural poor, to deliver indigenous and inexpensive methods to treat the diseases of those who are unable to take modern treatment due to their financial constraints. During the last two decades, ARSI has made a great achievement in this field.
