Accommodation for abroad Students at Sharayu Guest House

Sport's Facilities

ISCC is established in the year 2018 to continue to collaborations developed by the
S.V.J.C.Ts B.K.L. Walawalkar Hospital since 2006
Institute has an established Student International Cell working under International Student
Cell committee. International Student Cell Committee takes utmost care of International
students during their stay and studies

Sr. No	Name	Designation
1	Dr. Suvarna N. Patil	Medical director & Chairperson of ISCC
2	Dr. Mansingrao Ghatage	Dean & advisor of ISCC
3	Dr. Sunil Nadkarni	Advisor of ISCC
4	Dr. Asmita Karnalkar	Member
5	Dr. Anil Kurne	Member
7	Dr. Anagha A. Modak	Member
8	Dr. Arvind S. Yadav	Member
9	Dr. Anup Nillawar	Member
10	Dr. Rahul Chopade	Member

Objectives

1. To create a bond between international medical schools and B.K.L .Walawalkar Rural Medical College.
2. To coordinate with foreign UG and PG medical students for their summer internship programs for visa and MCI related formalities.
3. To prepare the schedule of program which includes clinical postings, OPD exposure, community outreach activities and give knowledge about communicable diseases prevalent in India such as Leptospirosis, Malaria, Dengue and TB as well as snake and scorpion stings. Arrangement of college faculty to shadow these students along with their lodging and boarding
4. To inform local police and customs about their arrival.
5. To arrange interactive sessions with medical students of B.K.L. Walawalkar Rural Medical College

Goals

1. Visiting the medical education facilities offered by this Institute:
2. Visit to Pre-clinical, Para-clinical departments including Microbiology, Pathology and Biochemistry laboratories.
3. Clinical departments visited are Medicine and allied, Surgery and allied, Obstetrics and Gynecology, Radiology, Anesthesia & Community Medicine.
4. Observe work and patient flow at institute (in Outpatient and Inpatient facility).
5. Interact with medical students and share knowledge to understand undergraduate curriculum.
6. Field visit to Rural and Urban health care centers for learning and understanding health services provided by this Institute.

Feedback from Dr. Ryan Pereira

Dr Ryan Pereira: (Australia)

"Ryan: My name is Ryan Pereira and I attended the Basic Surgical Skills Course. I thought it was a very good experience to improve my timing and get a quick feedback about my techniques. Also, it was very senior faculty which was teaching us and I recommend this course to other students."

Dr. Beck
Community Visit for antenatal check ups

२८ ते ३० जून या कालावधीत दुभंग ओठ आणि टाळू उपचार शिबिर

दुभंग ओठ आणि टाळू उपचाराबद्दल बऱ्याच जुन्या गैरसमजुती व अंधविश्वास आहेत. यातून रुग्णांना बाहेर काढण्यासाठी भ.क.ल.वालावलकर रुग्णालयाने आजपर्यंत वेगवेगळ्या शिबिरांचे आयोजन केले आहे. २००५ सालापासून येथे 'दुभंग ओठ आणि टाळू उपचार' या प्रकल्पाला सुरुवात झाली. सुरुवातीच्या काळात 'स्माइल ट्रेन' अंतर्गत हा प्रकल्प राबविण्यात आला. नंतर हाच प्रकल्प भ.क.ल.वालावलकर रुग्णालयाने स्वखर्चाने पुढे चालू ठेवला.

२०१७ साली "treatment for cleft lip and cleft palate" या प्रकल्पावर भ.क.ल. वालावलकर रुग्णालय व ABMSS (अखिल भारत महिला सेवा समाज), बंगलोर आणि DCKH (ड्यूश क्लेफ्ट किंडरहिलीफ), (German cleft children's aid society) यांनी बरोबर काम करण्यास सुरुवात केली. या सर्व शस्त्रक्रिया मोफत केल्या जातात. या प्रकल्पाचा फायदा रत्नागिरी जिल्ह्यातील रुग्णांनाच झाला नाही तर सिंधुदुर्ग, कोल्हापूर, सातारा जिल्हा आणि इतर अनेक ठिकाणच्या रुग्णांना झाला आहे. एका छताखाली रुग्णाला उपचारांच्या प्रोटोकॉलनुसार शस्त्रक्रिया आणि इतर दंत उपचार मिळू शकतात. दि. २८ ते ३० जून या काळात डॉ. निशीत अग्नी यांनी डेरवण रुग्णालयात शिबिर घेऊन सुमारे पन्नास मुलांची तपासणी

केली. त्यातील दहा मुलांवर शस्त्रक्रिया करण्यात आल्या. आणखी दहा मुलांवर पुढील शिबिरात शस्त्रक्रिया करण्यात येतील.

गेल्या १४ वर्षांपासून भ.क.ल.वालावलकर रुग्णालय या प्रकल्पासाठी उत्तम दर्जाची सेवा देत आहे व या प्रकल्पाअंतर्गत सुमारे १५० ते २०० लाभार्थींना फायदा झाला आहे. भ.क.ल.वालावलकर रुग्णालयामधील आधुनिक सुविधा ही ग्रामीण रुग्णांसाठी वरदान ठरली आहे.

दुभंग ओठ आणि टाळू उपचार शिबिर- डॉ. निशीत अग्नी शिबिरात रुग्णतपासणी करताना

Aaron Wall
Student

“ For my first trip, I found all the staff to be very polite and I could not have as had for more!

The organization and respect in the schools was amazing. Not only did the people here tell us how much we learn from them but I also look away a lot of new things I learnt and for that I am very thankful.

I hope to return in future to see many more fantastic improvements.”

improvements.”

Laura Jones
Anesthetics

“ I have had a wonderful time at the hospital. Firstly, I have never experienced such a wonderful hospitality & felt so welcome somewhere new.

I was lucky enough to spend time in the community going to the nutritional camp for new mothers. I found this really interesting & was very impressed with the difference this has made to the birth weight of children. I then got to go to a village and saw the educational sessions for young children, again this was fantastic! I was honored to meet the lady in charge of the village & see what a fantastic job she is doing.

The baby shower again was fantastic. I am extremely impressed with everything that is being done in the community.

I also got involved in teaching medical students, nursing students & ICCU Staff. I was impressed with their knowledge & level of English. I hope that if I come back in future years, I will be able to design & run a teaching programme focusing on the students needs.

Thank you for a fantastic opportunity.”

18

Charlotte
Medical Student

“ I have had the most incredible time here. It has been an invaluable experience for me, especially only being a medical student. I have learnt a huge amount – the UK team and especially the hospital staff has been so willing to share their knowledge with me.

I had not expected the overwhelming hospitality shown by everyone I have met! I have particularly enjoyed the visits into the community to witness the 'REACH' programme and all the work put into educating and empowering the local women.

It was brilliant to meet the medical students studying here and to find we had so much in common!

Walawalkar hospital would be a brilliant place to come for my elective. I really hope this will be possible. There is so much to learn here!

Thank you to all! ”

Interaction with Medical students of B.K.L. Walawalkar Rural Medical College

Interaction with Medical Students & special lectures :

Transformation of medical students to become medical professionals is a core competency required for physicians in the 21st century. Role modeling was traditionally the key method of transmitting this skill. Medical colleges are developing medical curricula which are explicit in ensuring students develop the professional competency and understand the values and attributes of this role. The purpose of this meet was to determine student perception of professionalism and gain insights for improvement in promotion of professionalism in undergraduate medical education.
