'International Consumer Rights Protection Day' 15 March 2023

This day was celebrated with great enthusiasm & a total of 265 medical student contestants participated in the quiz. Participating farmers were sensitized about consumer rights through on-the-spot assessment of questionnaires on consumer rights. The awareness campaign focused on protection of rights, market abuse and how to prevent social injustice.

Immunohistochemistry Workshop, 19 March 2023

On March 19, 2023, B.K.L. Walawalkar Rural Medical College in association with Tata Memorial Hospital Mumbai organized a workshop for Pathologists on 'Immuno Histo Chemistry Genomic in Oncology'. 'Immunohistochemistry' is a laboratory technique used to diagnose cancer. It can also be used to differentiate between different types of cancer.

Immunohistochemistry is a routinely used technique and the results are very accurate. These tests are routinely used to diagnose types of breast cancer. Workshop was organized for general practitioners. Pathology residents and interns
