

## **B. K. L. Walawalkar Rural Medical College, Sawarde**

Sports play a vital role in our lives. It helps us to stay healthy, fit, and active. It teaches us the value of teamwork and encourages us to work hard and never give up. Sports also help us develop discipline, dedication, and commitment, which are essential values for success in life. It is also a great way for people to socialize and make new friends.

B.K.L. Walawalkar Rural Medical College has an active Sports club which was established in the year 2023. The club comprises members from faculty and MBBS students. The main objective of sports club is to promote, organize and conduct various sports events throughout the year for MBBS students at the college level. This would encourage our students to participate in higher level sports events such as at University, state and national levels. As a medical student faces many challenges so participating in sports helps them cope with the examination pressure and prepare them for further challenges by providing them with physical and mental strength. Students who are indulged in physical activities sustain good values of mutual respect and cooperation. Playing sports teaches them skills such as accountability, leadership, and learning to work with a sense of responsibility and confidence
