## Field Visit Report 2023-2024

First, second and third phase MBBS students belonged to admission year 2020, 2021, 2022 and 2023 has successfully completed field visits according to the time table scheduled.

The objective of field visits is to familiarize medical students to primary and secondary health care settings where they are able to study promotive, preventive, curative and rehabilitative services in rural community.

Field visits are conducted for students to make them aware of health care delivery system by visiting Primary Health Centre, Sub center, Rural hospital, Anganwadi occupational setting (Industry) as well as Environmental Health by studying water purification and waste disposal processes.

In addition they also study implementation of National health programmes at all levels of health care.
