Charak

Charaka is believed to have lived during the 4th century BCE. He is considered one of the principal contributors to the Charaka Samhita, an ancient Ayurvedic text that is one of the foundational texts of Ayurvedic medicine.

The Charaka Samhita is a comprehensive treatise on various aspects of medicine, including etiology, diagnosis, treatment, and ethical considerations. It covers a wide range of topics, including anatomy, physiology, herbal medicine, surgical techniques, and the use of minerals and metals in medicine.

Charaka's approach to medicine was holistic and focused on understanding the body as a whole.

He emphasized the importance of maintaining a balance among the three doshas (vata, pitta, and kapha) and believed that disease resulted from an imbalance in these doshas. His treatments aimed to restore this balance through dietary changes, herbal remedies, lifestyle modifications, and therapies such as massage and detoxification.

Sushruta

Sushruta (Sanskrit: 'well heard') author of the Sushruta Samhita (Sushruta's Compendium, 1000-800 b.c.)

A treatise considered to be one of the most important surviving ancient treatises on medicine and is considered a foundational text of Ayurveda. He is called as "the father of plastic surgery" .

Sushruta attracted a number of disciples who were known as Saushrutas and required to study for six years before beginning hands-on surgical training. Before starting their training, they took a solemn oath to devote them to healing and to do no harm to others, often compared to Hippocratic Oath. After the students had been accepted by Sushruta, he would instruct them in surgical procedures by having them practice cutting on vegetables or dead animals to perfect the length and depth of an incision. Once students had proven themselves capable with vegetation, animal corpses, or with soft or rotting wood – and had carefully observed actual procedures on patients – they were then allowed to perform their own surgeries. These students were trained by their master in every aspect of the medical arts, including anatomy.

Digital Linking of Urban Health Center UHTC

UHTC Login page

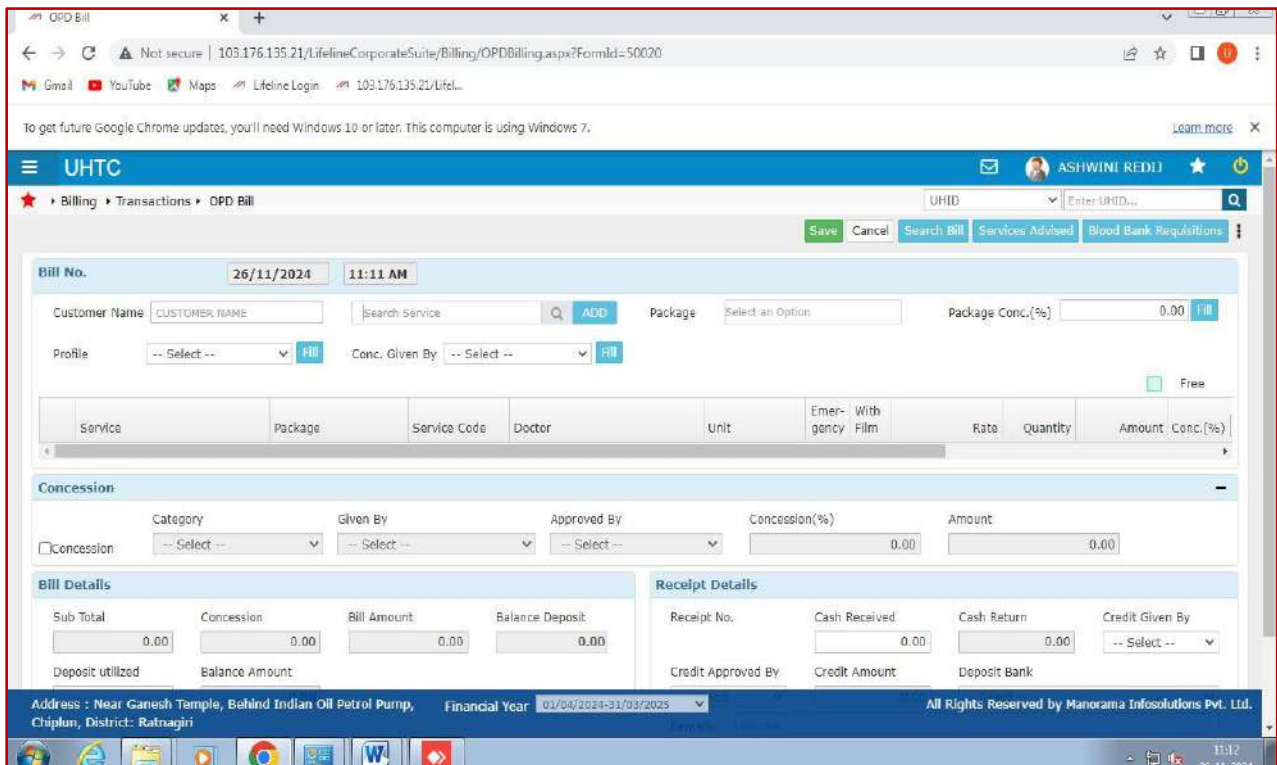

UHTC OPD New Registration Page

The screenshot shows the 'OPD Registration' page in the UHTC system. The page includes a navigation menu on the left with options like Registration, Master, Knowledge Hub, and Billing. The main form area contains fields for patient registration, including mobile numbers, Aadhaar card number, appointment number, registration date, full name, and search on relation. Below these are fields for personal details such as first, middle, and last names, father's name, birth date, marital status, occupation, religion, caste, and nationality. There are also fields for alternate mobile number, phone number, and email address. The page footer shows the address: 'Behind Indian Oil Petrol Pump, Financial Year 01/04/2024-31/03/2025' and 'All Rights Reserved by Manorama Infosolutions Pvt. Ltd.'

UHTC OPD Bill Page

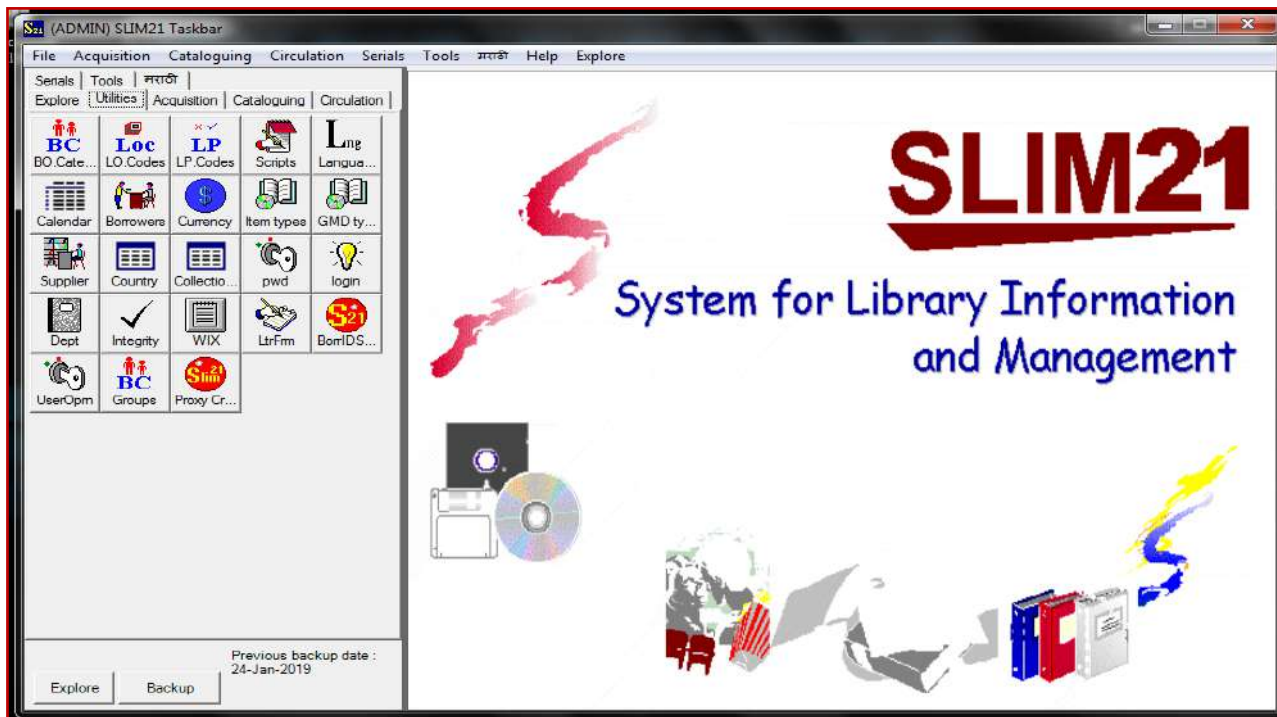

The screenshot shows the 'OPD Bill' page in the UHTC system. The page includes a navigation menu on the left with options like Billing, Transactions, and OPD Bill. The main form area contains fields for bill number, customer name, profile, and concession. Below these are sections for 'Bill Details' and 'Receipt Details'. The 'Bill Details' section includes fields for Sub Total, Concession, Bill Amount, and Balance Deposit. The 'Receipt Details' section includes fields for Receipt No., Cash Received, Cash Return, and Credit Given By. The page footer shows the address: 'Address : Near Ganesh Temple, Behind Indian Oil Petrol Pump, Chiplun, District: Ratnagiri, Financial Year 01/04/2024-31/03/2025' and 'All Rights Reserved by Manorama Infosolutions Pvt. Ltd.'

AYUSH - learning cum therapy centre

AYUSH is established to promote integration of Morden medicine with homeopathy and Indian systems of medicine including Ayurveda. In many cases, as evidence of safety and effectiveness grows, these therapies are being combined with conventional medicine. Thus, the term "alternative" has been dropped from the name. These therapies are now called complementary and integrative medicine, integrative medicine and health, or simply integrative medicine. Integrative medicine combines the well-researched conventional medicine with the most well-researched, evidence-based complementary therapies to achieve the appropriate care for each person

Objectives:

- To explore the possibilities of promoting Ayurveda And Homeopathy with conventional medicine.
- To disseminate the Knowledge of Ayurveda.
- To explore the scientific evidences in the field of homeopathy and Ayurveda.
- To serve the community / society with Ayurveda.

'Global Indian Scientists and Technocrats (GIST) training program

Ministry of Science & Technology Dr Harsh Vardhan had announced launch of 'Aahaar Kranti'

Aahaar Kranti launched as a public movement on the first day of Ma Annapurna's Chaitra Navaratri: Dr Harsh Vardhan 14 APR 2021 1:13PM by PIB Delhi

"Aahaar Kranti", a mission dedicated to spreading awareness about nutrition

The new initiative is a model for the entire world to follow

Union Minister for Science and Technology, Earth Sciences and Health and Family Welfare, Dr Harsh Vardhan has launched "Aahaar Kranti", a mission dedicated to spreading awareness about nutrition and accessible to all locally available nutritious food, fruits, and vegetables in India.

The 'AahaarKranti' movement is designed to address the peculiar problem being faced by India and the world- 'hunger and diseases in abundance'. Studies estimate that India produces as much as two times the amount of calories it consumes. However, many in the country are still malnourished. The root cause of this strange phenomenon is a lack of nutritional awareness.

The movement proposes to address the problem by working to rouse the people to the values and richness of India's traditional diet, to the healing powers of local fruits and vegetables, and to the miracles of a balanced diet. It will renew the focus on nutritionally balanced diets replete in locally sourced fruits and vegetables.

Vijnana Bharati (Vibha), 'Global Indian Scientists and Technocrats' Forum (GIST) Vigyan Prasara, and Pravasi Bharatiya Academic and Scientific Sampark (PRABHASS) have come together to launch the mission "Aahaar Kranti", with the motto of 'Uttam Aahaar- Uttam Vichaar' or 'Good Diet- Good Cognition'.

श्रीक्षेत्र डेरवण वार्तापत्र | नोव्हेंबर २०२३

नूतनीकरणानंतर वालावलकर रुग्णालयातील नेत्र विभाग रुग्णसेवेत दाखल

नेत्रविभागातील अत्याधुनिक उपकरणांचे फीत कापून उद्घाटन करताना श्री. अशोकराव जोशी, सोबत डावीकडून डॉ. सागर पाटील (नेत्ररोग तज्ज्ञ), श्री. प्रफुल्ल गोडबोले, श्री. बाळासाहेब काजरेकर आणि डॉ. निर्मला सरपोतदार (नेत्ररोग तज्ज्ञ)

मोतीबिंदू, काचबिंदू, नेत्रपटलावर मधुमेहाचा वाढता प्रभाव, आदींचे त्वरित निदान आणि उपचार करण्याकरता वालावलकर महाविद्यालय आता सज्ज झाले आहे. त्याकरता लागणारे अद्ययावत उपकरण 'नॉन-कॉन्टॅक्ट टोनोमीटर' आता तेथे उपलब्ध आहे. त्यामुळे डोळ्यांमधील दाब डोळ्याला स्पर्श न करता मोजून काचबिंदूचे निदान आणि उपचार करता येणार आहे. तसेच 'ऑटो रेफ्रॅक्टर' आणि 'केराटोमीटर'मुळे संगणकाचा वापर करून त्वरित डोळ्याचा नंबर काढून चष्मा किंवा कॉन्टॅक्ट लेन्ससाठी प्रिस्क्रिप्शन प्रदान करता येणार आहे. काही वेळा मोतीबिंदू शस्त्रक्रिया करूनही काही रुग्णांना स्पष्ट दिसत नाही, याचे कारण म्हणजे एक पडदा लेन्सच्या मागे तयार होतो. आता असा पडदा याग लेझरद्वारे नष्ट करून रुग्णाला पुन्हा दृष्टी प्रदान होऊ शकते. असे हे याग लेझर उपकरण आता वालावलकर रुग्णालयाच्या नेत्र विभागात आणण्यात आले आहे. बाह्यरुग्ण विभागातच ही शस्त्रक्रिया आता याग लेझरद्वारे अतिशय जलद आणि सुरक्षितपणे करता येणार आहे. फाटलेल्या रक्तवाहिन्या सील करणे, डोळ्यातील दाब कमी करणे आणि बुबुळाचा काही भाग काढून टाकणे ही उदाहरणे आहेत. डोळ्यांची शस्त्रक्रिया

याग लेझर मशिनची माहिती घेताना संस्थेचे विश्वस्त श्री. अशोकराव जोशी सोबत डॉ. निर्मला सरपोतदार आणि डॉ. सागर पाटील

'झाईस' या जर्मन कंपनीच्या ऑप्टिकल मायक्रोस्कोपची श्री. अशोकराव जोशी यांना माहिती देताना डॉ. निर्मला सरपोतदार आणि डॉ. सागर पाटील

करण्यासाठी ऑपरेटिंग मायक्रोस्कोप हे उपकरण फार महत्वाचे आहे. 'झाईस' नावाच्या नामवंत जर्मन कंपनीचा सूक्ष्मदर्शक आता वापरला जाणार आहे आणि त्यामुळे उपचाराचा दर्जा सुधारायला मदत होणार आहे. शिवाय शस्त्रक्रिया सुरू असताना दुसरे डॉक्टरही त्याच सूक्ष्मदर्शकाद्वारे ऑपरेटिव्ह फिल्ड पाहू शकणार असल्याने वैद्यकीय महाविद्यालयात शिक्षण घेणाऱ्या डॉक्टरांना याचा फायदा होणार आहे. सर्जिकल मायक्रोस्कोप, हे एक ऑप्टिकल मायक्रोस्कोप आहे. ते सर्जिकल सेटिंगमध्ये वापरण्यासाठी डिझाइन केलेले आहे, विशेषतः मायक्रोसर्जरीसाठी आवश्यक आहे. 'ऑप्टिकल कोहरेन्स टोमोग्राफी' किंवा 'ओसीटी' ही एक इमेजिंग पद्धत आहे. ती तुमच्या डोळ्याच्या मागील बाजूचे चित्र निर्माण करण्यासाठी वापरली जाते, ज्याला तुमचा डोळ्यातील पडदा म्हणतात. 'नॉनइन्वेंजिव्ह' पद्धत तुमच्या डोळ्यातील पडदा आणि ऑप्टिक नर्व्हमधून परावर्तित होणाऱ्या मंद लाल प्रकाशाचे प्रमाण मोजून प्रतिमा तयार करते.

अशा सर्व अद्ययावत उपकरणांनी सज्ज अशा नेत्र विभागाचे उद्घाटन संस्थेचे विश्वस्त श्री. अशोकराव जोशी आणि पुण्यातील नामवंत नेत्रतज्ज्ञ डॉ. निर्मला सरपोतदार यांच्या हस्ते करण्यात आले. नेत्र विभागासाठी डॉ. निर्मला सरपोतदार या नेहमीच तांत्रिक आणि आर्थिक मदत देऊन नेत्र विभागातील डॉक्टरांना प्रशिक्षित करतात आणि त्याचा फायदा कोकणातील गोरगरीब रुग्णांना होत आहे. डॉ. रघुनंदन कानविंदे आणि डॉ. आनंद जोशी आणि इतर सहकारी यांच्या उपस्थितीने कार्यक्रमाची शोभा वाढली. कार्यक्रमाचे सूत्र संचालन डॉ. प्रिया घाग आणि डॉ. अनिकेत खळदकर यांनी केले आणि डॉ. सागर पाटील नेत्ररोग तज्ज्ञ यांनी नवीन विभागाची विस्तृत माहिती दिली.
