| Summary of the activity | <p>The NSS cell has organized an Awareness session on Importance of Deworming, Hand Washing Practices and Prevention of Vector Borne Diseases for School Children under FAP of MBBS 2023 batch on 10/08/2024.</p> <p>Before the activity, students were divided into group of five and each group was asked to prepare poster and presentations in Marathi on topics Importance of Deworming, Hand Washing Practices and Prevention of Vector Borne Diseases.</p> <p>On the day of program, after formal inauguration and welcome speech by Headmistress of the school Mrs. Javrat, volunteers started the session.</p> <p>The 1st session was on Diarrheal disease prevention and deworming. Students explained the modes of transmission, symptoms and importance of ORS therapy using video and posters. Thereafter volunteers taught steps of hand washing with a song. All students performed these steps.</p> <p>The 2nd session was on Prevention of Vector Borne Diseases. Volunteers emphasized on preventive measures that can be used for preventing vector borne</p> |

diseases with the help of hand -made posters.

Participants provided positive feedback, expressing gratitude for the informative session.
